# Innovative Advantages

Are you incorporating flat panels into your operatory? *Innovative's* arms and mounts will save valuable workspace, while increasing your flexibility and productivity.

## **Flexibility & Ease Of Use**

---

*Innovative's* flat panel arms are intuitive to use – simply grab and move. One-handed repositioning of the monitor keeps you focused on your patient. Plus, the exceptional flexibility and range of our arms allows you to instantly rearrange your operatory.

## **Quality**

---

Designed for durability, all *Innovative* products are manufactured in the U.S. Aluminum and steel components ensure a safe and long-lasting solution for your office. Setup is quick – choose from one of many mounting options to attach the arm exactly where you need it.

## **Fast Response**
