Innovative Receives GSA and DoD Contracts

Mounting solutions for flat screen monitors, laptops and keyboards now readily available on DoD EMall and through GSA Advantage

Easton, Pa.—November 13, 2006—Innovative Office Products, Inc. (www.lcdarms.com), a designer and manufacturer of ergonomic mounting solutions for LCD monitors and keyboards, has announced that it has received GSA and Department of Defense contracts. Innovative products are now readily available for purchase through the Department of Defense Electronic Mall (DoD EMALL) and through GSA Advantage.

Innovative's products are available to government buyers under GSA Contract number GS-02F-0111S, and available through GSA Advantage (www.gsaadvantage.gov), a one-stop shopping source for federal buyers.

DoD EMALL (<https://emall6.prod.dodonline.net/main/>) provides the entry point for DoD, Federal, Industry (as agents for government) and Allied Nation purchasers to research and acquire off-the-shelf, finished goods and services from the commercial marketplace and government sources.

"We are pleased to be listed as a GSA and Defense Department vendor and proud to offer our robust line of LCD arms and monitor mounts to federal buyers. We are confident that buyers will recognize Innovative as a best-value solution," said Bud Oddsen, president of Innovative Office Products.

Innovative's broad range of mounting solutions includes its new EVO product line:

- The award-winning EVO™ LCD Arm. Winner of the prestigious 2006 red dot design award, EVO™ levitates flat panel monitors above the work surface, enabling intuitive fingertip adjustment of monitor height and position.
- The EVO™ Tablet Arm, a floating docking station for tablet PCs and notebooks, allows the user to create an ergonomic computing station at his or her primary desk, without sacrificing the mobility of the computer. A gas spring arm "floats" the computer above the desk for comfortable viewing, with quick attach and release for work on the go.

About Innovative Office Products, Inc.

Innovative Office Products, Inc. is an Easton, Pa., manufacturer that designs and builds an industry-leading product line of mounting solutions for computer monitors and keyboards. Founded in 1986, the company produces innovative products and custom-designed solutions that serve the needs of such prominent customers as the New York Stock Exchange, IBM, Lockheed Martin and NASA. Design awards received by the company include a 2006 red dot Product Design Award, and a silver medal from Business Week magazine's Best Product Designs Of The Year for 2002.
