

EVO® 5600 Series

Extended-Reach LCD Arms

The 5600 series of arms combines an award-winning EVO® LCD arm with a raised extension swing arm. This combination provides the effortless monitor adjustability of the EVO® with a swing arm raised high enough to clear countertop objects while providing additional monitor reach. Internal cable management in the swing arm keeps your counter or desk surface cable-free.

There are three arm options in the 5600 series:

Model 5600-08: short-reach EVO® 5500 arm provides extension of up to 22.6"

Model 5607-08: extended-reach EVO® 5507 arm provides extension of up to 28.6"

Model 5645-08: 45-degree EVO® 5545 provides extension of up to 26.6", along with raising the monitor as high as 24.7"

Extend your monitor over 28"

Effortless adjustment

Integrated cable management

FEATURES
